

Manufacturing and Distribution

Staff training can reap high rewards for employers involved in the process of manufacturing and distribution. With unprecedented levels of government funding now available there has never been a better time to release the power of your workforce.

Manufacturing and Distribution NVQ Training

Training your workforce

Meeting stringent UK regulations, while coping with increasing commercial pressures on service, quality and price, the need for a programme of continual improvement has never been more important. If you are weathering a storm, becalmed on a sea of complacency or riding the crest of a successful wave of expansion, staff training is one of the most crucial elements in recovery, sustainability and growth. Our range of government funded, National Vocational Qualifications will release the power of your workforce so you can reap the rewards.

- Motivated Workforce.
- Increased profits.

Employee Benefits

- Improved skills and knowledge.
- Nationally recognised qualification.
- Personal and professional development.
- Improved promotional prospects.
- Safer working environment.

National Vocational Qualifications

NVQ's are used to improve skills, knowledge and performance in the workplace. Candidates are assessed on their current skills and knowledge in their chosen occupational area and a programme of training fills any gaps needed to take them to the required level to achieve their qualification. NVQ's are normally available at Levels 2 and 3 and sometimes level 4.

Network Learning Centres Training

Our unique methods of delivering NVQ's in the workplace, provide the greatest improvements and highest achievement rates with minimum disruption to the working environment. These highly successful models have been developed over the last 9 years working with some of the leading manufacturing and distribution companies in the UK.

Training Consultant Service

The process starts in a meeting with one of our sector consultants who will discuss and identify your needs, provide advice and guidance on courses and funding available, and complete the paperwork should you choose to proceed.

Delivery Models

Depending on the qualification chosen and employer needs, the programme will either be delivered on a one to one basis where each candidate completes their own portfolio or in small groups using a master portfolio for the group. Where it can be used, a group model works more effectively, encouraging team work and delivering the qualification in a shorter time.

Both methods include the following features:

- "Award Winning" workbooks and/or workshops delivering underpinning knowledge.
- Easy to follow candidate portfolios.
- Frequent visits and support from a qualified tutor/assessor.
- "Direct Claim Status" with the awarding body.

NVQ Level 2 can normally be delivered to a very high quality standard in 3 months and NVQ Level 3 in 6 months.

Delivery Team

Our delivery team of fully qualified Assessors Tutors and Internal verifiers having a successful background in their specialist area, provide national coverage of flexible delivery to the very highest standards of quality and customer service. A qualification in Teaching and Skills for Life, ensures they are fully qualified to provide the very best support for candidates and their employers.

Award Winning Candidate Resources

A key element in our successful delivery model are the award winning workbooks and candidate portfolios. The workbooks explain in simple language and bite size sections, the underpinning knowledge needed for successful completion of the NVQ. Easy to follow Portfolios guide the candidate through the evidence they need to gather for the NVQ qualification.

Rapid Certification of Achievement

Our sustained quality of delivery over the last 10 years has earned the coveted Direct Claim Status with leading awarding bodies, enabling us to certify candidate achievements shortly after completion.

Courses Available

- Business Improvement Techniques Level 2 and 3.
- Business Administration Level 2 and 3.
- Customer Service Level 2 and 3.
- Team Leading Level 3.
- Management Level 4.
- Performing Manufacturing Operations Level 2.
- Warehousing and Distribution Level 2.

Skills for Life

Many candidates take the opportunity to improve their literacy or numeracy skills and gain extra qualifications while achieving their NVQ. These are fully funded and embedded into the delivery of the NVQ programme.
